Men vs. Women

How do men and women communicate differently?

When you're reading someone's writing, can you usually tell if it's a boy or a girl? How can you tell?

Men vs. Women

Let's look at an example of a first kiss and then the conversations that follow as each of the two involved tell their close friends.

Imagine this situation with me.

- While at a school dance, Amy returns from the bathroom to discover her date, her boyfriend of ten months, dancing with another girl. She's not just any other girl though; she's Amy's worst enemy and has been since their huge fight about a year ago. Amy immediately storms out of the dance, and her date is left dancing with her enemy.

The next day, both Amy and her date are telling a close friend about what went down.

- **You MUST include dialogue; this means you will have quotation marks in your paragraph!**
